After high school, Kayla plans on majoring in International Relations or Political Science. In ten years Kayla hopes to be finished with school and possibly be working within the United Nations. If that does not work out, then she hopes to own a restaurant in Europe. She admires Pope John Paul II the most. If Kayla could live in any time period she would choose the Renaissance, because it has such a rich history, and she loves everything about it. If Kayla could take a trip anywhere, she would choose to go to all the islands in the Mediterranean Sea. One of her favorite teachers is Mr. King, "he always gives me a good laugh." One of Kayla's favorite foods is pasta, because there are so many varieties. Her favorite movie is How To Lose A Guy In 10 Days, favorite music, she listens to everything, but anything she can dance to. If Kayla received a million dollars, she would put some in stocks and then give it away to charity. Next year Kayla plans to attend Baker University to play volleyball.
