

Spotlight on Kevin Johnson

By: Kaitlin Eastman
Copy Editor

Kevin was born to Angie and George Johnson on December 19, 1988. Kevin has one brother named Keith, 20, who goes to Washburn University. After high school, Kevin plans to work at Custom Sheet Metal. When school is over for the day he likes to fish, hunt, and hang out with his friends. He plays baseball, his favorite animal is a dog, and his favorite food is pizza. Kevin has one lab named Dutch, and two Shih-Tzu named Booings and Chewy. His favorite high school memory so far is Mr. Davis's class. If he go take a trip anywhere he would go to his cousin's apartment in Alabama. His favorite teacher is Mr. Stuewe, because he lets them sleep. His favorite class is Ag. mechanics, because they get to weld. In ten and twenty years Kevin would like to see himself working at Custom and maybe married. He admires his cousin Zach, because he doesn't take "no" for answer. Something no one knows about Kevin is that his right foot is bigger than his left. He listens to rap and country music, his favorite movie is *Beerfest*, and if Kevin had \$1 million he would put it into savings.
