

IFSP ENDING DATES ONCE STUDENTS TRANSITIONS TO ECSE SERVICES
09/02/05

As children transition from Infant-Toddler services into early childhood services it will be necessary to write an IEP.

An IEP will need to be written immediately for any child that is transitioning:

- Just prior to the September 20th child count date (state count date), or,
- Just prior to the December 1st child count date (federal count date)

Any other time of the year (other than those listed above) an IEP will need to be written at the end of 2 weeks (or 10 school days) following the transition of the student into ECSE services.

Therefore, no IFSP will carryover more than 10 school days following the entry of any student into ECSE services.
