Comments: We had 5 of the 7 High School running their first 5K race and 5 of the 6 Junior High were running their first Cross Country race. The conditions were as hot as I ever remember for a meet, but our athletes pulled through and toughed it out. Winning the meet was just icing on the cake. Dating back to last year, our boys have now won 3 of their last 7 meets. This is an inexperienced group of runners, but they have been putting in the work in practice and if they continue to do so, we should remain competitive as we see tougher competition in the next few weeks. We have our largest Junior High squad in many years, and they stepped right in and competed well. It will be fun to see how far they can come this year.
