Comments: We ran a much tougher course against much tougher competition this week. There were 4 boys' teams that are in the state rankings and another 2 that received votes for the rankings. That kind of competition will help us as we prepare for the important meets at the end of the season. Despite a much hillier course, all of our runners improved their times by at least 45 seconds. Joe Hund had the most improvement with an incredible decrease of 7 minutes. Junior Blaine Tharman ran his best time of his career, which is notable for this early in the season on a difficult course. We are now 5-1 versus league competition on the boys' side and we are within range of defending our League Title from last year. On the girls' side we won't field a full team this year, but Cierra Bauer got off to a good start as she missed earning a medal by just 9 seconds. This was Cierra's first Cross Country race as she had missed last week due to illness. She stepped in and competed well against some tough competition.
