Comments: We had lots of good competition at this meet. Jefferson County North is one of the top 2A teams in the state; Pike Valley and Axtell are two of the top 1A teams in the state. This was scored like a 1A meet, using the top 4 runners for team scores instead of the top 5. Counting 5 would have put us a whole lot closer to 3rd place. We should get another good test next week at Riley County, which will pay off as we enter the most important part of our season: League, Regional, and State. We had PR's from Luke, Evan, Joe, Buzzy, and Nate even though this course was tougher than the course where they earned their previous PR's. Blaine, Chance, and Cierra were not far off their PR's as well. Blaine, Chance, Luke, and Cierra earned individual medals, and Cierra earned a second medal as the top freshman in the girls' race. We have a lot of potential for the big meets at the end of the season. It's been fun to see this inexperienced group develop into a strong team.
