**Comments:** A strong wind and tough course slowed times down, but we competed pretty well. There were lots of State-Quality runners and we held our own. Blaine ran his best race of the year in earning the 10<sup>th</sup> place medal. Chance and Cierra also medaled in the high school race. The boys' team continues to position themselves for a shot at qualifying for State, which would be a real accomplishment considering we only returned 2 runners from the entire team (varsity or JV). The Jr High squad had a great day, as everyone brought home medals. Madeline even had an 11-second PR despite the tough conditions, Cross had a 4-second PR, and Chelsea tied her PR.
