**Comments:** The boys' team came in seeded 12<sup>th</sup> and fell just 5 points shy of catching Washington County for 11<sup>th</sup>. As a group they averaged a minute and twelve seconds faster than when we ran the same course earlier this year. Blaine was 19 seconds from earning All-State honors and Cierra was 20 seconds away. Blaine will earn Academic All-State honors, this is a fairly new award and Blaine is the first WHS runner to earn it. I'm very proud of how this group has competed all year long. To have such an inexperienced team and have everyone finish off the season by running at the State Meet is quite an accomplishment. This team is already setting goals for next year, and it should be a bright future for WHS Cross Country. Thank you to everyone who came over to Wamego to support us. This was the largest cheering section we have had since I have been here. Your support for our team was greatly appreciated.
